Today's witches use technology!

Marita Liulia Tarot is a combination of high quality art & design multimedia, entertainment and on-line game. Tarot is a playful communication system based on 78 symbolic cards and their interpretations. The cards present the main events of human life from birth to death. The cards are organized into Tables, each dealing with a specific issue. Tarot is a gentle and humorous tool to understand one self and others. Marita Liulia has brought the 600-year-old Tarot game to the present, to our styles, our visual world and naturally to our communication systems.
